

TeamConnect Ceiling 2 - Dante™ Firmware

Ceiling microphone array - Dante™ module: Audinate DANTE Broadway

Dante Firmware version 1.3.0 - Release Date 2021-02-01

For conformity, consistency and compatibility reasons, we strongly recommend upgrading the system to the new release.

Features

- Dante output channel 1 “OUT” changed to “MainOut”
- Additional Dante output channel 2 “FarEndOut” added
This channel is intended for recording purposes or for far-end transmission of audio data that is not processed by the voice lift algorithms.

Firmware Update

- The Dante™ firmware update requires Audinate’s Dante Controller software:
