694 - 790 MHz (TV channels 49 - 60)

Moratorium date for use of the reallocated frequencies: none

Additional changes: none

Compensation for affected PMSE owners (frequency range 694 - 790 MHz): no compensation

Sennheiser

Sennheiser invested great efforts to advise all customers in the all new, complex frequency situation with a large communication campaign under the umbrella of “DD ready”.

Furthermore Sennheiser was one of a few PMSE manufacturers to provide frequency services for their customers in order to reduce costs of change.
