

PC 11

Internet Telephony

The PC 11 makes it easy to phone over the net with clear sound quality wherever you take your laptop – thanks to one-hand operation and an adjustable high-performance microphone. The ultra-light and discreet on-ear design is not only comfortable, it also quickly stows away in a handbag or pocket.

- **Speech clarity** – adjustable, omni-directional microphone delivers clear conversations and flexibility
- **Light and comfortable** – on-ear headset that is so light, you'll almost forget you are wearing it
- **Flexible wearing** – two ear-hooks give you the choice of wearing the headset on either your right or left ear
- **Easy to use** – just insert the 3.5mm plugs into the microphone and headphone jacks on your desktop or laptop and you are ready for internet telephony
- **Internet telephony on any computer** – for desktop PCs and laptops, on the road or at home
- **Peace of mind** – thanks to the 2-year international warranty
